

CONSUMER GUIDE

for Services, Products, Information and Technologies

Towards Sustainability in New Hampshire

Introduction and Guidelines

The following consumer guide is intended to support New Hampshire residents move towards more sustainable lifestyles. We will update the guide as needed and hope it grows and grows - as NH grows greener. There is no charge for being listed in this guide, thanks to generous support from the Plymouth Area Renewable Energy Initiative (PAREI).

The information has been presented just as we received it, with the possible exception of services. When services listed were not from the list offered in the inclusion form, we have attempted to interpret. Please let us know if there are any errors.

Listing in this guide is not an endorsement by NHSEA, its board of directors or its members. Please use all standard Buyer Beware precautions.

Matters of Geography

Most businesses listed are located in New Hampshire. A few 'outsiders' have also been included if their service to New England impacts NH or there are no similar companies within NH's borders. The goal is simply to locate the goods and services we need to achieve sustainability.

ABODE Builders of New England

568 Tenney Mountain Highway

Plymouth, NH03264

Bob Wildes

Telephone: 603.536.1400

email: info@yourabodehome.com

website: <http://www.yourabodehome.com/>

Services Offered: Designer/Builder, Eco-Sensitive Land Development

Description: Certified green designer/builder specializing in eco-sensitive developed building lots and energy-efficient, healthy homes throughout New England.

Adros Energy

5 Northern Boulevard

Amherst, NH03031

Matt Currier

Telephone: 603-880-6007

email: info@adrosenergy.com

website: <http://www.adrosenergy.com/>

Services Offered: We show residential and commercial consumers how to first conserve and then collect renewable energy to reduce, or even eliminate, soaring heating/cooling and electric bills. Our certified energy auditors will show how to improve your property's efficiency and reduce your overall energy costs. Adros Energy sells and installs high quality, custom, solar, geothermal and wind systems to meet each consumer's budget and goals across all New England states.

Description: Adros Energy is a leading specialist in audit & weatherization services and provider of clean energy systems. We are experts in Solar, Geothermal and Wind power technology and combine these technologies to create hybrid power solutions. Adros has another location in Belmont, Massachusetts.

Alteris Renewables Inc.

64 Main Street

Montpelier, VT05602

Kara Basque

email: info@alterisinc.com

website: <http://www.alterisinc.com/>

Services Offered: Alteris Renewables is the largest design-build renewable energy company in the Northeast, with more than 2,250 completed installations over the past thirty years and more than a dozen offices across six states. Ranked as one of the top ten fastest growing energy companies in the Inc. 500, Alteris provides turn-key solar electric (photovoltaic or PV), solar thermal, and wind solutions for commercial, residential, education, government and institutional clients. The company has industry-leading expertise in engineering, design, project management, performance analysis, project financing and renewable energy credit programs.

Description: Company Locations:

64 Main Street, Montpelier, VT 05602;

51 Dugway Rd. Waitsfield, VT 05673;

312 Stuart Street Boston, MA 02116;

28 Wolcott St., Providence, RI 02908;

20 Burnside St 2nd Fl, Bristol, RI 02809;

523 Danbury Rd., Wilton, CT 06897;

32 Taugwonk Spur, A12, Stonington, CT 06378;

66 Viaduct Rd., Stamford, CT 06907

Alternative Energies

The Waterline Companies

Seabrook, NH03874

Jeff Haydock

Telephone: 603-474-7477 or 603-474-6236

email: jhaydock@waterlineae.com

website: <http://www.waterlinecompanies.com/>

Services Offered: Waterline Alternative Energies is your local turn-key renewable energy solution provider specializing in Wind,

Solar and Hydroelectric technologies. With experience in Residential, Commercial and Municipal projects throughout New England, our in house team of engineers, installers and electricians can help design a system which meets your specific needs and renewable energy goals. Our experience and technology agnostic approach lets us provide you with the best system at the best price, every time.

Description: Member of the Green Alliance, American Wind Association and New England Clean Energy Council. In business for over 20 years. We are an established contractor with on staff project managers, electricians, carpenters, and certified installers.

Applied Mechanics

35 Standish Way

Amherst, NH03031

Ray Iannuzzelli

Telephone: 672-2701

email: Ray.iannuzzelli@alumni.upenn.edu

Services Offered: Mechanical Engineering, FEA, CFD

Description: A registered professional mechanical engineer with an interest in solar energy.

Aucella Heating and Cooling

P.O. Box 598

Strafford, NH03884

Tobias Marquette

Telephone: 855-926-6888

email: tobias.marquette@aucella.biz

Services Offered: Aucella - A high performance HVAC company providing energy audits and comprehensive energy measures.

Description: Installer of:

High Efficiency boilers and Furnaces

High Efficiency Water Heaters

Geothermal Heating and Cooling

Energy Recovery Ventilators

Air Cleaners and Filtration Systems

Humidification and Dehumidification Systems

Forced Air Zoning Systems

Energy Saving Boiler Controls

Radiant Floors

Air Conditioning Systems

Solar Thermal Hot Water and Space Heating

Cogeneration Heat Pumps

Basix Automation Integrators

8 Merrill Industrial Drive

Hampton, NH03801

Christopher Yaum

Telephone: 765-5972 / 926-0190

email: chrisy@basixai.com

website: <http://www.esinh.com/www.basixai.com>

Services Offered: HVAC Controls

Description: 30 years experience in HVAC/climatic controls

Battic Door Energy Conservation

PO Box 15

Mansfield, MA02048-0015

Mark D. Tyrol

Telephone: 508-320-9082

email: info@batticdoor.com

website: <http://www.batticdoor.com>

Services Offered: Dealer/Distributor

Description: Our products SAVE YOU MONEY ON YOUR ENERGY BILLS by reducing drafts and air-leaks around often overlooked "holes" including the attic stairs, the whole house fan, the fire place, the clothes dryer, and the bathroom exhaust fan. By sealing these air leaks, our products reduce cold drafts and heat loss in the winter, as well as air conditioning loss in the summer.

Blue Link Solar Network

25 Limerick Road

Arundel, ME04046

Phil Coupe

Telephone: 207-232-6595

email: phil@luelinksolar.net

website: <http://www.bluelinksolar.net>

Services Offered: Solar Electric/Solar Hot Water

Description: The Blue Link 480 is the world's first 'plug & play' solar electric device. This means that able bodied person can set up the Blue Link in about 30 minutes. You simply place the Blue Link in a sunny location, deploy the side pv arrays and then plug the Blue Link's extension cord into a home outlet. When the sun is shining, the Blue Link feeds clean electricity directly into your home.

Borrego Solar Systems, Inc

131 Stedman Street, Unit 15

Chelmsford, MA01824

Andrew Reed

Telephone: 206-437-6071

email: areed@borregosolar.com

website: <http://www.borregosolar.com>

Services Offered: Engineer/Systems Design, Solar Electric Installations

Description: Borrego Solar Systems, Inc. specializes in commercial, residential and public sector turnkey, grid-connected solar electric systems. With over 25 years of experience and a portfolio of over 300 solar photovoltaic projects we are well-established and reliable. Borrego Solar is expanded to New England in 2007.

BrightGarage, LLC

68 Kearsarge Avenue

Contoocook, NH03229

Robert Fleischman

email: rmf@brightgarage.com

website: <http://www.brightgarage.com/>

Services Offered: Manufacturer and Supplier of Solar Space Heaters.

Description: BrightGarage Solar Space Heaters can heat your home using only energy from the Sun. The heaters take cool air from your home, channel it into a heating chamber where it is heated by energy from the Sun, and then circulate that heated air back into your home.

Bruss Construction, Inc

114 East Main Street

Bradford, NH03221

James Bruss

Telephone: 603 938-2069

email: JWB@brusscon.com

website: <http://www.brusscon.com>

Services Offered: Builder / Construction Management

Description: For more than 20 years Bruss Construction has been dedicated to providing construction management, general contracting and innovative design/build services throughout New Hampshire. Bruss Construction is a leader in green building technologies and sustainable energy use structures whether residential, commercial or municipal.

BTD Mechanical Contracting

P.O. Box 603

Campton, NH03223

Paul D'Allesandro

Telephone: 603 726-3487

email: mailto:bob@mechanical.com

website: <http://www.btdmechanical.com>

Services Offered: We provide solar hot water systems, High efficiency heating design and installation, solar pv systems, Small mechanical contractor with extensive knowledge and resources.

Building Energy Technologies, LLC

8 Oakmont Drive

Concord, NH03301

Andy Duncan

Telephone: 724-7849

email: aduncan@bldenergytech.com

website: <http://www.buildingenergytechnologies.com>

Services Offered: Energy Efficiency/Audits, Insulation, Indoor Air Quality

Description: Provides cellulose insulation, air sealing, ventilation, windows, lighting, HVAC controls, and other energy performance services. Residential and small commercial. Building energy assessment services. Dedicated to quality work, cost effective solutions a

Carol Jowdy Landscape Design

PO Box 212

Center Sandwich, NH03227

Carol Jowdy

Telephone: 284-7397

email: cljowdy@yahoo.com

Services Offered: Landscape Design, Education

Description: Environmentally responsible, ecologically conscious sustainable landscape design development. Working with residential and commercial clients in central New Hampshire.

Christopher P. Williams Architects, PLLC

P.O. Box 703

Meredith, NH03253

Chris Williams, AIA, NCARB

Telephone: 603-279-6513

email: dulbright@cpwarchitects.com

website: <http://www.cpwarchitects.com/>

Services Offered: Architectural design / construction management

Description: A full service, LEED certified architectural design firm providing innovative and environmentally friendly solutions to residential, municipal and commercial clients throughout New England for 25 years.

Clear Mountain Solar LLC

197 Washington St.

Claremont, NH03743

Mitch Sidd

Telephone: 603-543-9900

email: mitch@clearmountainsolar.com

website: <http://www.clearmountainsolar.com>

Services Offered: Design, Sales, and Installation of Re-newable Energy Systems.

Description: We are an established Solar Store servicing the greater Conn. River Valley region specializing in residential and commercial sales and installations for Solar Thermal and Photovoltaics.

Clear View ITC

3 South Rd

Newbury, NH03255

Scott Falvey

Telephone: 603-568-0537

email: clearviewhi@yahoo.com

website: <http://www.clearviewhomeinspectionsllc.com>

Services Offered: Thermal Imaging, Testing for Radon gas, Mold and water quality.

Description: We perform Independent inspections, testing and consulting for Commercial and Residential buildings utilizing visual inspection as well as Thermal Imaging (Infrared) by a Certified Building Sciences Thermographer to provide our clients with the information necessary to help their buildings perform as efficiently as possible with the building they already have. Consulting on Alternative energy sources is available as well as inspecting and testing for Environmental/health related concerns such as Water quality, Air quality, Radon Gas and Mold.

Cobb Hill Construction, Inc.

206 N. State St.

Concord, NH03301

Robert Couch

Telephone: 800-543-8373

website: <http://www.cobhill.com>

Services Offered: A Design-Build, Construction Management Firm

Description: Cobb Hill Construction, Inc., a Concord, NH based firm, was founded in 1986 as a residential remodeling company. In addition to our design-build experience, over the past five years Cobb Hill has also worked in the construction management (CM) format on a number of million dollar projects in the medical, hospitality and historic preservation areas. Our current staff is approximately 25 employees: 9 office, 4 project management, 6 Supervisors and 6 or more carpenters, laborers, and technicians.

Our company has a very active and progressive safety program both for our own employees and subcontractors and we are a Green Building Council and Energy Star Partner.

A few of the more notable projects we have done are: Capitol Center for the Arts, NH Visiting Nurses Association Hospice House, American Red Cross building and Capital Commons, just to name a few.

Conserval Systems Inc

4242 Ridge Lea Road Suite 28

Buffalo, NY14226

F. Scott Cicora

Telephone: 585-738-7567

email: scott@solarwall.com

website: <http://www.solarwall.com>

Services Offered: Manufacturer Solar Heating

Cover / The Recover Store

158 South Main Street

White River Junction, VT05001

Frank Orłowski

Telephone: 802-359-5900

email: Frank@coverhomerepair.org

Services Offered: Home repair

Wallingford, CT06492
Dan Diorine

Telephone: 800-729-3759

email: ct@englertinc.com

website: <http://www.englertinc.com>

Services Offered: Manufacturer - Metal Roofing

Description: Manufacturer metal coil & sheet coated with Energy Star/LEED compliant paint systems.

Environmental Solar Systems

117 West Street
Methuen, MA01844
Paul Soucy

Telephone: 978 - 975 -1190

email: envsolar@comcast.net

website: <http://www.environmentalsolarsystems.com/>

Services Offered: Environmental Solar Systems Inc. is a design –build renewable energy company that is incorporated in NH. We are also a manufacturer of solar hot air and water solar panels. We also provide turn key solar electric (photovoltaic systems) solar thermal for both domestic water heating and solar space heating. Our company has over 15 patents in the solar and energy efficiency and has been in business for 30 years. We also worked with coops around the world such as Uganda where we helped a coop of 100 families dry pineapple and bananas, using bio-mass and renewable energy.

Frase Electric LLC

789 Whittier
Sandwich, NHKim Frase

email: kfrase@hughes.net

Services Offered: Electrical contractor and Solar Photovoltaic (electric) designer and installer in the lakes region

Description: Electrical contractor for 18 years and in the trade for 32 years. We specialize in design and wiring of high end homes and commercial buildings with energy efficiency in mind. Solar PV design and installation which includes site evaluation and assistance with rebate paperwork for a complete turn key installation. Will work with customer to keep costs of system down if they want to assist in the installation.

Freedom Renewable Energy

55 Crystal Ave

Derry, NHRich Doucette

Telephone: 603-552-5466

email: askushow@freedomrenewable.com

website: <http://www.freedomrenewable.com>

Services Offered: Design, sale, installation, and service of renewable energy systems. Including solar pv, solar thermal, solar hot air, wind turbines, geothermal, and hydro-power.

Description:

Fuat Ari, MBA

96 Hilliard Rd

Chichester, NH03258

Fuat Ari

Telephone: 603-961-0045

email: fuatari@comcast.net

Description: Installer of solar hot water panels.

GDS Associates, Inc.

1181 Elm Street, Suite 205

Manchester, NH03101

Scott Albert

Telephone: 603-656-0336

email: scott.albert@gdsassociates.com

website: <http://www.gdsassociates.com>

Services Offered: Residential, Municipal, Commercial and Industrial Energy Audits, ENERGY STAR® Home Ratings, Strategic Program Design, Policy Development, Program Impact and Process Evaluations, Program Implementation and Oversight, Renewable Energy Feasibility Studies, Cost Effectiveness Analysis, Technical Potential Studies, Market Transformation, Market Research, Load Management and Demand Response Assistance, and other Energy Efficiency, DSM and Renewable Energy services

Description: GDS ASSOCIATES, INC. (GDS) is a 120-person multi-service engineering and management consulting firm, headquartered in Marietta, Georgia, with offices in Auburn, Alabama; Austin and Corpus Christi, Texas; Manchester, New Hampshire; Madison, Wisconsin; Avon, Indiana; and Manchester, Maine. GDS has a 30-person Energy Efficiency, Renewable Resource and Distributed Generation (EERD) Department that has substantial energy efficiency program design, implementation, and program evaluation experience. Key EERD staff (including Richard Spellman – President & Principal, Scott Albert – Principal

& Northeast Region Manager, Rich Hackner, P.E. – Principal & Midwest Region Manager) have performed market characterization, progress indicator identification, baseline measurement and monitoring activities and have assessed market actors, end-users, and energy efficiency technologies across commercial, industrial, residential, low income sectors and in distributed generation and renewable resource areas. EERD Residential clients include owners and builders of new and existing homes, architects and building code officials. Commercial and industrial EERD clients include industrial facilities, multi-family housing developments, public housing authorities, schools, offices, healthcare facilities, and many other commercial and industrial parties.

Services Offered: Full service energy audits by BPI certified building analysts; residential, commercial and municipal. Energy efficiency retrofits and installs

Energy use consultations

New construction plan review for efficiency measures.

Description: NHNRG is a full service energy auditing and efficiency retrofit contractor, serving residential, commercial and municipal clients throughout NH, ME and VT.

We use state of the art testing equipment and software to evaluate a building's energy consumption and identify energy saving opportunities that make sense - not only for our client's building, but for their budget. In addition to energy efficiency, we also assess the building for durability issues, indoor air quality, mechanical and electrical system function, as well as occupant comfort and health and safety opportunities. Using this "building as a system" approach, we provide our clients with valuable, comprehensive information to make their building healthier and more affordable through energy efficiency.

When you partner with NH NRG, You don't need to worry about how you are going to accomplish your building performance goals. We can manage your efficiency project start to finish, ensuring it is completed in a timely manner and the desired result(s) of improved energy efficiency and the much larger goal of reducing global carbon pollution are achieved.

NRGranite State Clean Cities Coalition

29 Hazen Drive

ReDriven Power Inc.

24 A Bath Rd

Ontario, CANADA, K0E1K0

Robert Poulin

Telephone: 866-330-0007

email: rpoulin@redriven.ca

website: <http://www.redriven.net>

Description: manufacturer and distributor of the ReDriven 2 kW, 5 kW, 10 kW and 20 kW wind systems. These very reliable active yaw wind turbines are well suited to on-grid installations in which the power is consumed directly by the end-user. All ReDriven units are ideal for use by farms, cottages, ranches, rural homes, small schools, small industrial businesses, and other facilities in grid tied applications. Characterized by energy production at very low wind start up speeds, the ReDriven 20 kW will deliver significantly higher output as at higher wind speeds the turbine turns slightly out of the wind while producing maximum power. The expected useful life of the all ReDriven products is 25 years. ReDriven, located in Iroquois, Ontario Canada, has a growing 90+ dealer network across North America.

Steel Elements, Inc

18 Glen Road

Gorham, NH03581

Raymond E. LeTellier

Telephone: 466-2500

website: www.Steelements.com

Services Offered: Manufacturer

Description: We manufacture framing materials from studs to pre-assembled wall and truss frames. These are made out of light gauge cold formed steel and from 70% recycled materials. An interesting fact which we throw around from time to time is that a 2000 sq ft house uses about 1 acre of timber; the same house would use about 5 recycled cars. All of our material is galvanized to prevent rusting. It assembles as easy as wood, but, most of all it is straight, no knots, insect resistant, fire resistant, studs can be cut

to order and reduce site waste and much more. We feel our products fall into the live green philosophy.

Stoneyfield Electric

50 Perch Lane

Contoocook, NH03229

Paul Steinberg

Telephone: 224-7119

email: steinberg@tdstelecom.com
